Columbia, South Carolina 29210

RE: Report after Restoration of Natural Gas Service  
Docket No. NDI-2020-\_\_\_\_-G

Dear Ms. Boyd:

Dominion Energy South Carolina, Inc. ("DESC") hereby submits the following written report in compliance with Public Service Commission of South Carolina ("Commission") Regulation 103-414, which requires DESC to notify the Commission and the South Carolina Office of Regulatory Staff ("ORS") by telephone of "any interruption of [natural gas] service affecting its entire system or major division thereof, or any major community or any important division, consisting of at least fifty customers, of a community . . . as soon as practicable after it comes to the attention of [DESC]" and to provide a complete written report to the Commission and ORS after restoration of service, if the interruption of service is more than six hours in duration.

On October 7, 2020, at approximately 9:17 a.m., a second-party contractor, who was installing a 2" plastic natural gas main, damaged a steel service line at 705 Bull Street in Camden, South Carolina, pulling the service line from the existing 1 1/4" steel gas main. The natural gas line had been marked, but the markings were based on incorrect records.

DESC secured the leak at approximately 9:41 a.m., by turning off a valve, resulting in the loss of service to 51 customers. In compliance with Commission Regulation 103-414, DESC provided telephonic notice to the Commission and the ORS of the interruption of natural gas service affecting more than fifty (50) customers.

DESC made the necessary repairs, and natural gas service was restored to 31 of the 51 customers by 1:41 p.m. on October 7. Service to the other 20 customers, who were not at home initially, was restored by 4:52 p.m. that same day.

By copy of this letter and pursuant to Commission Regulation 103-414, DESC is providing the ORS with this report.

The Honorable Jocelyn G. Boyd
